📁 Projects

Revv.co.in clone, Individual Project ⬈
07/2022 – 07/2022
This website is not entirely built on React Js within 4 days.

I've mostly focused on UI, User FLow, log in, and SignUp Functionality

skills used in place are ReactJs, and API, for UI I used ChakraUI. for fetching the data using Axios.

Caratlane Clone, This Project was in collaboration . ⬈
03/2022
I got my first Project on construct week at MASAI SCHOOL. which was a collaborative Project of 5 members. I'm Leading our team. there were 4 days to complete it. we were doing daily project scrum in the morning. whatever issue any person faces will be solved by the day.

most skills used by a member are JAVASCRIPT, HTML, and CSS.
I did the landing page. there was a product page, with lots of functionality like add to cart, sort orders by pricing, payment, login, and logout.

so this is my collaborative project. and we are complete it.
